I. Introduction

This is a simple template that can be used for a report.

II. Features

II.1. Colorful items

The main color can be set with the `main-color` property, which affects inline code, lists, links and important items. For example, the words highlight and important are highlighted !

- These bullet
- points
- are colored

1. It also
2. works with
3. numbered lists!

II.2. Customized items

Figures are customized but this is settable in the template file. You can of course reference them : Listing 1.

Listing 1 — Code example

```
fn main() {
  println!("Hello Typst!");
}
```
